It is hoped the project will be the first in a series of “Vision” developments.

Dedicated Volunteers Help Keep Northside Free of Invasives

A dedicated group of Vienna volunteers is meeting again this spring to help remove invasive plants from Northside Park. The group is coming up on its one-year anniversary and invites new members to join in its efforts. Meetings are held seasonally for group work days, and individuals also have volunteered to adopt areas of Northside Park where they can remove invasive plants all year round at their convenience. In addition to removing the invasives, the group assisted with the planting of native shrubs, trees and flowers last month.

Invasive plants are plants that are not native to an area but were somehow introduced. One way that many invasive plants are introduced to natural areas is by spreading from nearby gardens. Many plants sold in nurseries are invasive, and it is wise to check before purchasing a plant to add to your yard. Once invasive plants become established, they spread rapidly over large areas of the landscape, choking out native plants that support our local wildlife. To learn more about the most invasive plants in our area as well as information about native plants, visit www.dcr.virginia.gov/natural_heritage/invspinfo.shtml.

Please consider joining the group for a work day to learn more about invasive plants and to help preserve the natural beauty of Northside Park. Contact Cathy Salgado at csalgado@viennava.gov for more information.

Vienna Named Tree City USA

For the ninth consecutive year, the Town of Vienna has been named a Tree City USA community by the Arbor Day Foundation to honor its commitment to urban forestry.

Four standards must be met to become a Tree City USA community: having a tree board or department, a tree care ordinance, a comprehensive community forestry program, and an Arbor Day observance and proclamation.

The Tree City USA program is sponsored by the Arbor Day Foundation in cooperation with the National Association of State Foresters and the U.S. Department of Agriculture's Forest Service. Information can be found at www.arborday.org/TreeCityUSA.

Have Fun with Your Dogs This Spring, but Keep Them Safe

Tips provided by Rudy's Friends Dog Training

Dog owners look forward to getting outdoors with their pets in the spring, but be aware that there are plants in our area that are toxic to dogs, including daffodil, philodendron, rhododendron, wisteria, periwinkle, morning glory, azalea, elephant ears, hens and chicks, tulip and hydrangea. For a more detailed list, visit www.aspc.org/toxicplants and www.ThePoop.com.

Cocoa mulch is very harmful to dogs and may be fatal. It has a fine texture and a sweet smell that is attractive to curious canines. This mulch contains theobromine and caffeine just as in chocolate.

Everyone has spring fever and is ready for a car ride. It is highly recommend that dogs *do not* ride in the front seat. They can quickly become a huge distraction and cause the driver to have an accident. Windows are another issue. A dog may enjoy having his head hanging out of the window and catching a breeze but would you allow a child to ride that way? Debris and wind can cause damage to the dog's eyes and ears. Your dog may also fall out of the car.

“Vienna at Your Service” Features Black History and Cemeteries

Vienna native Ted Thomas will discuss African-American history in the community and the five historic cemeteries within the town limits.

Vienna at Your Service was designed to give citizens the opportunity to learn more about their community. Participants are asked to register with the Parks and Recreation Department. For more information, call 703-255-6360.

Ideas Wanted for Vienna at Your Service Programs

Past programs have featured Town departments, boards and commissions, the volunteer fire department, police detectives, the budget and taxes, the Freeman House, Vienna Presbyterian Church, and the original town library. Suggestions may be e-mailed to the mayor at jseeman@viennava.gov or call 703-255-6310.

Can Your House Number Be Seen?

It's a life-threatening situation where police, fire or ambulance service is needed. You dial 911 and feel confident that help will soon be there. You hear the sirens coming and see the flashing lights reflecting off the trees. But wait, they did not stop. They went too far. Maybe they could not see your address.

According to the Fairfax County Fire and Rescue Department, one of the recurrent problems emergency personnel encounter when responding to calls is missing or hard (sometimes impossible) to read house numbers. Precious time is wasted looking for the location of an emergency because the address is not properly posted so it is visible and distinguishable from the street.

Try driving past your house during the day and again at night to see how easy your numbers are to read. Both the size and location of numbers are important. They should be large enough and placed so that they can be read from the center of the street going in both directions on the darkest night, in the worst of weather, and not obscured by shadows or hidden by foliage.

How does your house measure up to this checklist?

- Script writing may look appealing, but can you read it on a dimly lit street from a moving vehicle?
- Are your house numbers large enough to be seen from the street?
- Do the numbers contrast sharply with their background?
- If the house is some distance from the street or the view of the house is blocked by trees or shrubs, are your house numbers on a sign attached to a tree, fence, gate, or lawn stake near the street?

- On a corner lot, do the house numbers face the street named in your address?
- Are your house numbers illuminated or easily visible at night?

If you have questions about the proper method of posting your address for safety, call the Fire and Rescue Department at 703-246-3801.

No Curb Painting Allowed

From time to time residents receive offers to paint their house numbers on the curb. Not only have these solicitors failed to apply for a license, but they cannot legally paint the curb because it is technically Town property. If you receive such a solicitation, please call the Police Department's non-emergency number, 703-255-6366.

A Look at the Proposed Budget for Fiscal Year 2010-2011

MESSAGE FROM THE TOWN MANAGER

The ability of the Town of Vienna to weather economic downturns is a result of our history of preparing realistic revenue projections and continually monitoring expenditures throughout the year. Another factor is that as a Town, we are not responsible for schools or social services, two areas where state cutbacks have hurt counties and independent cities. The Town has also maintained a history of conservative spending even during economic growth, and thus our budgets level the peaks and valleys that occur in the national and regional economies.

We were cognizant of the fact that assessments would decline yet again, so our instructions to departments advised that no new programs, services or employees should be proposed. We also included no step increases or market adjustment in the proposed budget. We have, however, budgeted funds to absorb the increase in health insurance premiums for employees that will take effect on July 1, 2010. By doing this our employees will not see a reduction in their net pay during the 2010-11 fiscal year.

For 2010 the average existing residential assessment *decreased* by 5.47% over 2009 while the average existing commercial assessment *decreased* by 17.75%. The Town did have new construction of just over \$24 million during 2009 both in the residential and commercial areas. As of January 1, 2010 the percentage ratio of residential value to commercial value in Town is 78/22 versus a 76/24 ratio in 2009, reflecting the decline in commercial assessments.

As was our practice for the 2009-10 fiscal year we took a very conservative approach towards our revenue forecasting with overall General Fund revenues seen as declining slightly from FY 09-10 levels. The FY 2010-11 budget is based on a real estate tax rate of 24.91¢ per \$100 of assessed valuation, which represents an increase of 2.10¢ from the FY 2009-10 tax rate.

Expenditures for the Water & Sewer Fund total \$6,602,770, a *decrease* of \$14,465 or .22%. Based on our revenue projections it will be necessary to increase both the water and sewer rates for the first time in three years. The proposed budget is based on increasing water rates by 22¢ per 1,000 gallons, and sewer rates by 46¢ per 1,000 gallons for all users. For the average user, the proposal would increase the quarterly utility bill by \$12.92 or 14¢ per day. We have estimated that 15¢ of the proposed increase is attributable to the planned valuation study to be started in the late summer/early fall of this year. We continue to pursue a long-term wholesale water agreement as well as examining any proposals for an alternative means of providing utility services to our residents and out-of-town customers.

I invite you to read the entire budget message and proposed budget. The budget is available for public review at Town Hall and Patrick Henry Library, and online at www.viennava.gov. We also have a tax calculator widget on the Web site so that citizens can compute their actual Town taxes for 2010-11 versus the 2009-10 rate. Citizens are also encouraged to attend the public hearing on the budget, scheduled for the Town Council meeting on Monday, May 10, beginning at 8 p.m. in the Council Chamber at Town Hall.

Sincerely,
John H. Schoeberlein

Budget Preparation and Adoption

The Code of the Town of Vienna requires that by July 1 of each year, the Vienna Town Council adopt by ordinance a budget establishing the tax rate for the incoming year. Estimated revenues must be equivalent to estimated expenditures. It is mandated in the Code that the fiscal year begin on July 1 and end on June 30.

At least one public hearing must be held on the budget prior to its adoption. Seven days prior to this hearing, the Town Clerk must publish a notice of Council's intention to hold such an event. The budget cannot be adopted at the same meeting at which the public hearing is held. Two notices, again at least seven days apart, must then be published in a paper of general circulation announcing Council's intention to adopt the budget. Following this advertisement, Council may then adopt the budget. After this action is taken, the Town Clerk publishes the final notice of adoption.

The Town of Vienna's budget process begins in January of each year when Council presents to the staff its budget priorities for the upcoming year. Citizens who have suggestions about what items should be given priority for funding are encouraged to express their views in writing to the Town Manager. In addition, non-profit Vienna organizations may apply for donations of Town funds.

The Town Manager then prepares and submits to the Town Council his proposed budget, and copies are made available to the public. This year, budget work sessions were scheduled for April 12, 17 and 26. The public hearing on the proposed budget will be held at the Town Council meeting on May 10, which begins at 8 p.m. in the Council Chamber at Town Hall. If Council considers it necessary, a final budget work session to discuss comments made at the public hearing will be held on May 17. A separate hearing on the proposed tax rate will be held on June 7. Adoption of the budget is scheduled for the June 21 Council meeting.
