## **Pedal toward the rules of the road**

They may not be old enough to drive, but learning the rules of the road can help keep children on bicycles safe. Children will gain knowledge of road rules, practice bicycling safety strategies, and learn about cycling etiquette at the Town of Vienna's Bike Rodeo from 9 a.m.-noon this Saturday, May 4, in the Vienna Volunteer Fire Department parking lot.

Town police officers and veteran cyclists will instruct children on braking, balancing, and handling surprises as they guide them through a custom-designed obstacle course. All children participating are required to wear a helmet.
