

**TOWN OF
VIENNA**
Public Works

TO: Vienna Construction Industry
FROM: Department of Planning and Zoning, Department of Public Works
CC: Department of Public Works, Department of Parks and Recreation, Town Manager
DATE: August 11, 2020
SUBJECT: Electronic Plan Review (20-002 LTI)

Please note that effective August 17, 2020, all applications for zoning permits and building permits that are reviewed by the Town of Vienna, unless not listed on the next page, will need to be submitted online through the idtPlans review portal (vienna.idtplans.com). A detailed list of all application types to be applied for can be found on the next page. Information on how to apply via idtPlans can be found on the "Support" tab on the main idtPlans page. Additional information, such as checklists and how-to guides, will be provided on the Planning and Zoning web page at www.viennava.gov. Town inspections can also be scheduled via the electronic plan review software.

Although the Town will conduct its review of building permits (necessary for decks, additions, new homes, porches, etc.) through the new system, applicants should be aware that building permits still must be submitted first through Fairfax County's separate online permitting system. More information about the county's submission requirements can be found at fairfaxcounty.gov/plan2build/interim-counters.
