

GET OUT FOR VIENNA

## Jaycees Request Business Support For Walk-a-thon

The Vienna Jaycees are asking town merchants to support the "Get Out for Vienna" walk-a-thon, scheduled for April 25.

The Jaycees hope to raise \$50,000 from the walk-a-thon to be used for projects to benefit the Vienna community.

Donations of money and merchandise are needed from Vienna merchants. Monetary donations will be used to support an extensive publicity campaign and to purchase T-shirts for each of the walkers. Merchandise will be used as prizes for the winners of a "Get Out for Vienna" essay contest and for those walkers who raise the most pledge money.

Members of the Jaycees will be calling on merchants soon to ask for support, and will answer questions about the project. For further information, contact Bob Mennonna, project chairman, at 527-2245.

## Citizen Action Team Formed To Assist in Metro Planning

The Town Council has created a citizen action team to assist the Town staff in planning for the Vienna Metrorail Station.

This three-man group is known officially as the Vienna Area Metro Station Citizen Action Team (VAMSCAT). Its members are Bennett Moss, Neil Walp and Frank Willingham, all selected by Council because of their expertise in the fields of transportation planning, land development engineering and urban affairs.

VAMSCAT will assist the Town staff in seeking to implement the recommendations of the Vienna Metro Station Planning Task Force. The Task Force, composed of residents from each section of town, was established in 1980 to assess the potential impact on the town of the Vienna Metrorail Station, scheduled to open in mid-1986 at the intersection of Nutley Road and I-66.

The Task Force's final report, submitted last June, makes the following recommendations:

- \* Develop a local bus system to serve Vienna's own Metro riders and a radial network of buses on all major highways feeding into the Vienna Station.
- \* Divert drivers away from the Vienna Station by providing fringe parking lots and express bus service to the station.
- \* Evaluate traffic control problems at critical intersections and survey town residents on their planned use of Metro and routes of station access.
- \* Prepare and test a contingency plan for controlling commuter parking on town streets.
- \* Influence the final configuration of any new development plan for the area north of I-66 (the former DeLuca tract). Such a plan should reflect a 70-30 percent mix in favor of office versus apartment use.
- \* Support extension of the "K" Line to Dulles Airport.
- \* Work with Metro planners to assure that the design of the Vienna Station provides adequate lighting and security in parking lots, platforms and exit areas; access for the handicapped, pedestrians and bicyclists; and covered walkways from bus bays to station entrances.

Town officials have requested meetings with representatives of the Washington Metropolitan Area Transit Authority, Fairfax County Office of Transportation and Virginia Department of Highways and Transportation to discuss these recommendations. Their first priority will be the design of the Vienna Station to adequately accommodate feeder buses.

Town Hall will be closed for Washington's Birthday on Monday, February 15. NO TRASH PICKUP THAT DAY.
