

VIENNA POLICE HIGHLIGHTS

April 8, 2022

The following summary contains various incidents of general interest as well as vehicular crashes handled by the Town of Vienna, Virginia Police Department from April 1, 2022 to April 7, 2022. Readers are reminded that an "arrest" is based upon probable cause and does not always mean that someone was physically taken into custody. Furthermore, it does not mean that an individual is automatically guilty of a crime. Judicial outcomes and post-arrest proceedings can be researched through the appropriate court's website.

(VIENNA POLICE HIGHLIGHTS IS NOT MEANT TO BE A LISTING OF EVERY INCIDENT OR CALL HANDLED BY THE Vienna Police, but merely a more substantive summary of several incidents, which may be of interest to the community. Some reports may be outside the date parameters due to extended investigations or other circumstances. Some cases are not included at all due to ongoing investigations. Please contact Juan Vazquez for further information at Juan.Vazquez@viennava.gov)

On July 1, 2021, citizens will be able to access Community Policing data via <https://data.virginia.gov/stories/s/rden-cz3h>. The Vienna Police Department had started complying with this state law in July of 2020. The portal will contain all non-consensual investigatory stops made by the Vienna Police Departments and other law enforcement agencies in the commonwealth.

Car Thefts and Tamperings

The National Capital Area and specifically the Northern Virginia area, has seen increased vehicle tampering incidents and vehicle thefts. In some incidents, suspects entered homes through unlocked doors and open garage doors to steal property and keys to vehicles. The suspects then used the vehicle keys to gain entry into vehicles and use them to get away. The Vienna Police Department would like to remind our community members to please stay vigilant, close, and lock all doors of residences and garages to prevent criminals from targeting your property.

If you see suspicious activity or persons, we ask that you notify the police department at 703-255-6366 or, in case of an emergency 9-1-1.

Vienna Police Department to Participate in the DEA Prescription Drug Take Back Initiative

Saturday, April 30, 2022 from 10:00 a.m. to 2:00 p.m.

In conjunction with the United States Drug Enforcement Administration (DEA) and state and local law enforcement agencies, the Vienna Police Department will again participate in a one-day initiative to remove potentially dangerous controlled substances from area homes.

On April 30, 2022, between 10:00 a.m. and 2:00 p.m., the Vienna Police Department will have a collection site for old, expired, unused, or unwanted medications. Prescription medications, controlled or non-controlled substances, and over-the-counter drugs may be turned in anonymously at the collection point inside the Vienna Police Department temporary facility located at 301 Center Street, South, Vienna, Virginia 22180 (The former Faith Baptist Church).

Participants may dispose of medication in its original container or by removing it and disposing of it directly into the collection box. If an original container is used, the individual should consider removing any identifying information from the prescription label. Liquid products should remain sealed in their original container to prevent leakage.

DEA will collect vape pens or other e-cigarette devices from individual consumers **only** after the batteries are removed from the devices. It is important to stress that the DEA is not responsible for removing the batteries from the devices.

Intravenous solutions, injectables, and syringes will not be accepted due to associated hazards (The only exemption is Epipens).

Commercial businesses, pharmacies, or other medical facilities may not use this as a means to discard expired medications or medical waste.

For DEA Authorized Collectors that provide year-round drop-off locations to the public to dispose of unwanted pharmaceuticals, go to [Controlled Substance Public Disposal Locations](#).

Warning: McAfee Scam Email**

Detectives with the Vienna Police Department are investigating two separate scam incidents related to a "McAfee Antivirus" email. Detectives advised that the scam usually begins with an email that purports to be from McAfee informing citizens that they are being charged \$300 for "McAfee Total Protection anti-virus software" unless they cancel the order by calling a phone number provided in the email. If you call the number provided, you will be greeted by a scammer posing as a McAfee employee who will ask for personal information, including a bank account number supposedly to verify the account. After receiving the personal information, the scammer will request a wire transfer of funds which will be nearly impossible to reverse once it is completed. The Vienna Police Department provides the following guidelines for spotting and avoiding a "phishing" email:

- 1) Always check the sender's email. Phishing emails may look like they are from a legitimate company you trust. Most of the time, you can tell it is a phishing scam if the sender's email address consists of random numbers and letters. If you are unsure, research the email of the company.
- 2) Look for spelling and grammatical errors. Phishing emails tend to have multiple spelling and grammatical errors in them.
- 3) Phishing emails will attempt to trick you through a sense of urgency in order to click on a link or open an attachment. You can inspect the link by hovering the mouse over it without clicking on it—only open attachments from trusted and verified sources.
- 4) Phishing emails may trick you by saying:
 - a. They've noticed suspicious activity or login attempts
 - b. Claim there are account problems or problems with payment information
 - c. Ask to confirm personal information
 - d. Attach fake invoices
 - e. Provide a link to allow for a payment
 - f. Threaten to arrest
 - g. Offer money or free items

If you feel you have fallen victim to a phishing scam, please call the police non-emergency number, 703-255-6366, to report it. You can also report phishing emails to your email provider or the Federal Trade Commission (FTC) using their website.
