

VIENNA POLICE HIGHLIGHTS

September 16, 2022

The following summary contains various incidents of general interest as well as vehicular crashes handled by the Town of Vienna, Virginia Police Department from September 9, 2022 to September 15, 2022. Readers are reminded that an “arrest” is based upon probable cause and does not always mean that someone was physically taken into custody. Furthermore, it does not mean that an individual is automatically guilty of a crime. Judicial outcomes and post-arrest proceedings can be researched through the appropriate court’s website.

(VIENNA POLICE HIGHLIGHTS IS NOT MEANT TO BE A LISTING OF EVERY INCIDENT OR CALL HANDLED BY THE Vienna Police, but merely a more substantive summary of several incidents, which may be of interest to the community. Some reports may be outside the date parameters due to extended investigations or other circumstances. Some cases are not included at all due to ongoing investigations. Please contact Ruth Rohr for further information at Ruth.Rohr@viennava.gov)

On July 1, 2021, citizens will be able to access Community Policing data via <https://data.virginia.gov/stories/s/rden-cz3h>. The Vienna Police Department had started complying with this state law in July of 2020. The portal will contain all non-consensual investigatory stops made by the Vienna Police Departments and other law enforcement agencies in the commonwealth.

Car Thefts and Tamperings

The National Capital Area and specifically the Northern Virginia area, has seen increased vehicle tampering incidents and vehicle thefts. In some incidents, suspects entered homes through unlocked doors and open garage doors to steal property and keys to vehicles. The suspects then used the vehicle keys to gain entry into vehicles and use them to get away. The Vienna Police Department would like to remind our community members to please stay vigilant, close, and lock all doors of residences and garages to prevent criminals from targeting your property.

If you see suspicious activity or persons, we ask that you notify the police department at 703-255-6366 or, in case of an emergency 9-1-1.

Media Information Release
Warning: McAfee Scam Email**

Detectives with the Vienna Police Department are investigating two separate scam incidents related to a "McAfee Antivirus" email. Detectives advised that the scam usually begins with an email that purports to be from McAfee informing citizens that they are being charged \$300 for "McAfee Total Protection anti-virus software" unless they cancel the order by calling a phone number provided in the email. If you call the number provided, you will be greeted by a scammer posing as a McAfee employee who will ask for personal information, including a bank account number supposedly to verify the account. After receiving the personal information, the scammer will request a wire transfer of funds which will be nearly impossible to reverse once it is completed. The Vienna Police Department provides the following guidelines for spotting and avoiding a "phishing" email:

- 1) Always check the sender's email. Phishing emails may look like they are from a legitimate company you trust. Most of the time, you can tell it is a phishing scam if the sender's email address consists of random numbers and letters. If you are unsure, research the email of the company.
- 2) Look for spelling and grammatical errors. Phishing emails tend to have multiple spelling and grammatical errors in them.
- 3) Phishing emails will attempt to trick you through a sense of urgency in order to click on a link or open an attachment. You can inspect the link by hovering the mouse over it without clicking on it—only open attachments from trusted and verified sources.
- 4) Phishing emails may trick you by saying:
 - a. They've noticed suspicious activity or login attempts
 - b. Claim there are account problems or problems with payment information
 - c. Ask to confirm personal information
 - d. Attach fake invoices
 - e. Provide a link to allow for a payment
 - f. Threaten to arrest
 - g. Offer money or free items

If you feel you have fallen victim to a phishing scam, please call the police non-emergency number, 703-255-6366, to report it. You can also report phishing emails to your email provider or the Federal Trade Commission (FTC) using their website.
