## Leaf Collection Ends

The last pass through town by leaf collection crews is scheduled for December 5-20 in south Vienna and December 20-January 2 on the north side of town. Please rake leaves just to the curbside, not into the street. For more information, call the Public Works Department at 255-6381.

## Order Your Free Mulch Delivery Now

The Public Works Department will deliver ground leaf mulch and ground wood mulch to town residents free of charge beginning in mid-January. The minimum order for each type of mulch is a dump truck load.

Orders will be taken from December 1 through February 28. To place your order and for more information, call the Public Works Department at 255-6382.

By grinding leaves and brush into recyclable mulch, the Town saves thousands of dollars in landfill fees each year while providing residents with tons of free leaf and wood mulch.

Using one to two inches of mulch to cover bare spots in the garden and around trees, shrubs, and landscaped areas will conserve moisture, improve soil fertility, and reduce weed growth. For "how-to" information on mulching, call the Fairfax County Recycling InfoLine at 324-5052.

## Council Approves NFCU Addition

The Town Council has approved the final site plan for the expansion of Navy Federal Credit Union (NFCU) headquarters at 820 Follin Ln., S.E., in the Vienna Technology Park. The project includes a four-story "north addition" with 318,824 square feet, an "east addition" enclosing 28,230 square feet, and a "circulation spine" connecting the additions with a five-level parking garage now under construction. Plans also include new perimeter roadway systems, front entrance driveway, extensive pedestrian trail system, and generous placement of landscaping throughout the construction area.

NFCU will take several steps to offset increased traffic at the facility, including installation of a traffic light

at Follin Lane and Echols Street, employee flex-time, and carpooling. Extensive landscaping is also planned to protect surrounding residential neighborhoods.

In addition to being the largest business in Vienna, NFCU is the nation's largest credit union with \$8.4 billion in assets and a membership of 1.4 million Navy personnel and retirees. It is estimated that when the new construction is complete, NFCU will be paying the Town some \$330,000 per year in real estate taxes.

The plans for NFCU's expansion project are available for public review in the Planning and Zoning Department at Town Hall.

## Women Involved in Change

By Martha Jo Garvie  
Vienna Town Councilwoman

Recently, I attended a symposium on Community Appearance, and as I looked around the room I realized the majority of the people sitting in the audience were women. This reminded me of several stories about women's groups in different areas of the country and how they changed the appearance of their communities.

The first story is about Vienna and one of its garden clubs and was told to me by someone who was there. Many years ago, a group of garden club members was playing bridge in one of the older homes on Park Street, and during the course of the card game the women discussed the "outhouses" that lined the town streets and what they could do about these unsightly buildings.

Ridding Vienna of the outhouses became their goal, and they relentlessly set out to do just that. The women organized and were successful; soon Vienna had no outhouses. This garden club was one of the forerunners of Vienna's Beautification Commission.

Another amusing story was told to me by my grandmother. The Women's Club in the small southern town where I grew up decided that they were tired of the unsightly cattle gaps in town. For those readers who don't know what a "cattle gap" is, it's a pipe covered trench used to keep animals out of certain areas. Aside from the women's shoes constantly getting caught in the gaps, however, they were not effective. In those days, cows and pigs wandered loose in the streets and the gaps were supposed to keep them out of the yards. Unfortunately, the animals ignored the gaps and broke through the fences to eat flowers and vegetables.

The women campaigned to pen up all the animals that were running loose in the town, and at their insistence an ordinance was passed and the animals were no longer allowed to roam the streets.

In both of these stories, women were instrumental in changing the

appearance of their towns, although women in those days were neither elected officials nor the business people of the community. Every now and then you had an exception, but primarily they were housewives and mothers, and if they worked outside the home they were secretaries, school teachers or nurses.

In today's society we see a different woman. She has gone through tremendous changes, some of them out of necessity and some as a result of women demanding their rights. Women are now involved in every lifework, and many are often referred to as "Super Moms." But throughout these

Councilwoman Garvie

changes, women have continued to work for improvement in the appearance of their communities. I know; I am one of them.

## Please Notify Public Works Dept. When Sewer Lines Are Cleaned

To help prevent sewer backups, the Public Works Department has instituted a policy to clean main sewer lines whenever residents notify the department that their service laterals have been rodded by a commercial sewer cleaning service.

Pressure cleaning to remove material washed into the main sewer line from the service lateral may help prevent future blockage of the main line.

If you have your sewer service

lateral cleaned, please call the Public Works Department at 255-6381.

This new procedure has been implemented at the suggestion of a Public Works employee. The Town's suggestion program encourages employees to develop ideas that provide Vienna with methods to reduce costs, increase operating efficiency, improve service, and eliminate health and safety hazards.

## Long Wait for Concrete Repairs

Citizens who would like to have the concrete curbs, gutters, sidewalks or driveway entrances at their homes repaired by the Town can call the Public Works Department at 255-6381 and request to be placed on the schedule for future repair work.

The department already maintains

a lengthy list of requests which, unfortunately, far exceed the Town's capabilities to keep up with the demand. Currently, concrete repairs are scheduled through 1996; residents requesting repairs at this time can anticipate a one- to two-year wait for completion.

## Attention Vienna Organizations

Due to the large number of requests received from organizations to display banners across Maple Avenue, the Town will implement a new procedure in 1995 to handle these requests.

Any organization that desires to display a banner must make a written request to the Town Manager no sooner than January 1. REQUESTS POST-MARKED PRIOR TO JANUARY 1, 1995, WILL NOT BE CONSIDERED. Requests

will be reviewed on a first come-first served basis to ensure fairness. Each banner may be displayed for no more than two weeks.

The following dates in 1995 are not available and should not be requested: January 9-23; April 17-May 29; and October 9-25.

If your organization's banner is approved for display, you will be provided with specifications for the banner.

# Cycle Building Dedication Dec. 10

The "Build a Cycle Building" Committee has scheduled a dedication ceremony at the new facility for 10:30 a.m. Saturday, December 10. The cycle building, which now houses the Vienna Police Department's motorcycle and bicycle equipment, was constructed entirely through donations from the community, and a special invitation is extended to those individuals, organizations and businesses to attend the dedication ceremony and be recognized for their contributions.

The committee thanks these new donors:

- \$10-\$25 — Crestar Bank, Windmill Graphix & Printing, Alice Sutherland

- \$26-\$250 — Accounting Financial, Ltd.

- \$501 or more — Vienna (Host) Lions Club

Those who contribute \$10 or more will have their names listed on a board to be placed inside police headquarters in perpetuity. Those who contribute \$500 or more will have their names placed on a plaque mounted on the new building.

In a future *Vienna Newsletter* the Build a Cycle Building Committee will make a final report on the project, including a complete list of all donors. On behalf of the committee, the chairman, Town Councilman George Lovelace, expresses appreciation for the overwhelming support the community has demonstrated for its police department.

## Food Establishment Seating Limited

Recently, a few food service establishments in town have experienced confusion concerning the number of seats they are permitted by the Town of Vienna and the Fairfax County Health Department. To assist the business community, the Planning and Zoning Department provides the following guidelines concerning food service seating capacity:

- If you have separate public restrooms, the maximum number of seats you are permitted is determined by the Planning and Zoning Department and is noted on your Certificate of Occupancy.

- If you have a single unisex public restroom, the County Health Department dictates that the total number of

seats and employees may not exceed 15. Seating may be further restricted by the Planning and Zoning Department.

- If you do not have restrooms accessible to the public, you are not permitted any seating.

For site-specific information concerning seating capacity for food service establishments, contact the Planning and Zoning Department at 255-6341 and the County Health Department's Consumer Services Division at 246-2444.

You are strongly advised to secure all necessary information and permission prior to signing any contract or lease.
