

Dispose of Household Batteries Safely at Community Center

The Fairfax County recycling facility located at the Vienna Community Center provides for collection of certain types of household batteries for environmentally safe disposal. This program targets batteries that contain cadmium, lithium, mercury, zinc and nickel. These are the small "button" batteries, lithium batteries, and rechargeable nickel-cadmium batteries often found in items such as watches, cordless phones and laptop computers.

This program does not collect the more common alkaline-type batteries used in radios, toys and flashlights. Battery manufacturers have virtually eliminated the mercury content in alkaline batteries, making these batteries safe for disposal with regular household trash.

For more information, call the County's Division of Solid Waste Disposal at 324-5230.

FEBRUARY 1987 — In accordance with a new ordinance requiring maintenance of landscaped areas shown on approved site plans for commercial buildings, the Department of Public Works has issued regulations that grassy areas must be kept mowed, and all landscaped areas must be fertilized, watered, and kept free of weeds and debris. Trees and shrubs must be kept pruned, and dead plants must be replaced immediately.

FEBRUARY 1977 — In a petition to Federal Aviation Administrator John L. McLucas, the Town of Vienna expressed support for the President's Council on Wage and Price Stability request to have the Dulles Access Road open to non-airport traffic. The petition states that the "present use of the road is below capacity; it will be many years before airport traffic alone will result in efficient use of the road; and that current policy of road use is therefore inflationary."

FEBRUARY 1967 — February 1 is the deadline for residents to enter a contest to name the town's beautification and community improvement campaign. First prize, donated by First National Bank of Vienna, is a man's attache case, silver serving dish, 1967 season pass to the Vienna Theater, or \$25 in cash.

When It Snows This Winter

Parking Plan Will Assist Snowplows

The Public Works Department has developed a snow removal plan that incorporates voluntary citizen parking restrictions to improve snowplowing efficiency. Components of the plan are listed below:

- The Public Works Department will mobilize equipment and manpower at the first notification of snowfall.
- Snowplowing operations will be implemented whenever snow accumulation is two inches or more.
- When snowplows are at work, residents are asked not to park on any street posted as a "snow emergency route," and on non-snow emergency routes residents are asked to park only on the side of the street with even-numbered addresses. This parking plan is voluntary but strongly recommended to enable snowplows to maneuver more easily and, therefore, do a more thorough job. The Street Maintenance Division will note any areas where parked cars are creating a problem so that additional alternatives can be developed to improve snow removal in those areas.
- Plowing and chemical treatment will continue on the primary and secondary streets until an accumulation of 12 inches is reached. For accumulations greater than 12 inches, the Public Works Department will concentrate on maintaining clear roadways on the primaries until the snow stops and then go on to open up all secondary streets.

Sign Up for Snow Shoveling Jobs

The Vienna Parks and Recreation Department has established a data base of workers for hire this winter by residents who need help shoveling snow. Individuals and businesses interested in jobs clearing snow from sidewalks and driveways are encouraged to register now with the "Snow Bank" — before it snows! To sign up and for more information, call Vienna Parks and Recreation at 255-6360.

Search on for New Police Chief

The Town is now in the process of selecting a new Chief of Police to succeed Col. Daniel J. Kerr, who resigned effective January 23 to become Chief of Police in Winter Springs, Florida, near Orlando. Kerr was Vienna's Chief for five years, following his retirement from the Fairfax County Police Department. During his tenure, a new police station was built and the department's personnel system was reorganized. In addition, a number of community outreach programs were created or expanded, including the DARE (anti-drug) program in schools, personal safety classes for women, cops and kids fun run, youth resources program, and the Chief's Advisory Committee.

NEW IN TOWN? The Public Information Office has prepared an information packet especially for new Vienna residents. Come by Town Hall and pick one up, or call 255-6330 to have one mailed to you.

Original Vienna Library Celebrates Centennial

For more information or to participate in planning the celebration, call Ann Martin at 281-1804.

Tyson's DMV Office Reopens

The Virginia Department of Motor Vehicles' Tyson's Corner Customer Service Center, 1968 Gallows Rd., was reopened to the public January 30 following a month-long renovation. Improvements include an enlarged lobby, more teller stations, and the addition of three information windows.

A new "queuing management system" has been designed to enhance service delivery and essentially eliminate service lines. When entering the office, customers will go directly to the information desk to receive a ticket displaying a number. The ticket number issued is based on the specific DMV service the customer needs. Once customers receive a ticket, they sit in the lobby chairs and watch the electronic message board for their ticket number and the number of the teller window where the transaction will be processed.

Del. Lovelace Reports from Richmond

George E. Lovelace, who was elected in December to represent Vienna in the Virginia House of Delegates, has sent the following letter from Richmond to his constituents back home:

Dear Friends and Neighbors,

I am excited about representing you in Richmond. Things move fast here and I have been appointed to the Education, General Laws, Chesapeake & Its Tributaries, and Militia & Police Committees.

My goals in this "short session" (the General Assembly meets 46 days this year, 60 days in 1998) are to enact legislation that will have a significant impact on education, transportation, public safety and our environment. We cannot afford to ignore violence in our shopping malls and our highway rest stops. I have introduced bills that prohibit the possession of handguns in a publicly owned recreation or community center; provide for "gun free" school zones; and promote educational opportunities, including family literacy. I am also working on a bill that will enable localities to deal with graffiti problems.

You will be of tremendous help in my role in the General Assembly by writing me at Room 816, General Assembly Building, P.O. Box 604, Richmond, VA 23218 or calling me at (804)786-6505. This is a team effort and I look forward to hearing from you. A visit to this historic capitol is also encouraged.

Sincerely,
George E. Lovelace

GENERAL INFORMATION

Collection for regular trash and yard waste (except bundled brush) will be made once weekly on the first collection day of the week.

Collection for mixed recyclable materials, newspapers and bundled brush will be made once weekly on the second collection day of the week.

Collection will not be scheduled for Sundays, Thanksgiving Day, Christmas Day, and New Year's Day. When a regular collection day is missed because of adverse weather conditions, a holiday, or mechanical difficulties, collections will be made on the next regularly scheduled day for that route.

Every effort will be made to cover the established routes as efficiently as possible. Whenever adjustments in the schedule occur, notices to this effect will be placed in the *Vienna Newsletter* and local papers.

REFUSE

Regular household trash, and yard waste consisting of grass, leaves, small clippings, acorns, walnuts, tree vegetation, etc., will be collected on the first day of the scheduled route. Yard waste must be bagged and separated from the regular

trash (20 bag maximum and 40 lb. weight per bag maximum). Dirt will not be accepted with yard waste.

All refuse shall be placed at the curbline or edge of pavement by 7:00 A.M. on collection day (but not earlier than 6:00 P.M. the preceding evening) where it will be easily and safely accessible. Refuse containers shall not be placed and left on a sidewalk or any portion of a street right-of-way where they would interfere with traffic. All trash cans shall be removed from the curbline or edge of pavement as soon as possible after trash pickup and by 7:00 P.M. the same evening as collection. The Town reserves the right to designate the collection point where there is a question or doubt.

All trash containers shall be regular watertight cans made of metal, or plastic (if non-breakable), equipped with handles, tight-fitting covers and with good bottoms. Cans with a maximum capacity weight, quality and type expressly designed for refuse disposal shall be used. Paper bags used in trash compactors and plastic bags may be substituted for cans. The bags shall be removed from the can or other holder, tied at the top, and placed at the curbline or edge of pavement.

In the interest of health and safety, defective trash cans will be red-tagged by trash crews indicating that they are no longer suitable for use. These will be removed the first pickup the following week if left at curbside in an upside-down position.

RECYCLABLES

Mixed recyclable materials, newspapers, and bundled brush will be collected on the second day of the scheduled trash route. Recyclables shall be placed at the curb or edge of pavement by 7:00 A.M. on collection day (but not earlier than 6:00

P.M. the preceding evening) where they will be easily and safely accessible. Recyclables shall be prepared in the following manner:

MIXED MATERIALS: GLASS bottles and jars, all colors; PLASTIC bottles and jugs; METAL food and beverage cans; and ALUMINUM foil and plates shall be placed together in a transparent plastic bag.

NEWSPAPERS: Shall be bundled with string or placed in brown paper (not plastic) bags separate from other recyclables.

BRUSH: Shall be cut in four-foot lengths and bundled. The diameter for brush collected in bundles is limited to 1½ inches.

(Cardboard is not currently collected at curbside but can be taken to the recycling center at the Vienna Community Center.)

SPECIAL PICKUPS

Each residence or nonprofit organization located in a residential zone is allowed two free special pickups each year. All items shall be placed at the curb or edge of pavement and on the front side of the property. Discards shall not be placed so that they block the sidewalk or street. Discards shall not be placed around trees, poles, signs, fences, or other obstructions. All materials must be separated from brush.

Residents must call for a special pickup as soon as they place discards at the curb or edge of pavement. Residents not complying will be notified that they have 48 hours in which to call for a special pickup. After issuing the notice and no action is taken by the resident, the Town will schedule and collect the debris. The resident will then be charged for the appropriate number of special pickups.
